

INDOOR VOLLEYBALL AND NET SPORTS

Did you know that volleyball is second only to the game of soccer in popularity worldwide? For decades, those millions of passionate athletes and elite volleyball programs in the U.S. and all over the world have trusted their games to GARED's SSI Volleyball brand. Now GARED is continuing SSI's tradition of excellence and innovation with our newly redesigned and improved Rallyline™ and Libero™ brands of competition and recreational indoor volleyball systems, all of which have many added safety and convenience features. If you're looking for versatility, look no further than our new arena portable unit or our ceiling-suspended system! Both eliminate the need for expensive drilling of large holes in your floor, and are a great option for courts being used for several different sports. No matter what your volleyball program requirements are, you can rely on GARED's line of premium volleyball systems, accessories, and storage equipment to take on your most demanding games!

THE SKYMASTER® Is a ceiling-suspended volleyball system that eliminates the need for hauling heavy volleyball uprights in and out of storage • This innovative design allows you to electrically raise and lower your entire system up and out of the way of other court activities in just minutes! • Everything you need to play is included with the system, including upright pads and a premium net • Optional padded referee stand is available • The SkyMaster® can be custom-manufactured to meet the specific requirements of any facility and is available in one, two, or three-court configurations • **25 YEAR LIMITED WARRANTY ON STRUCTURE, 5 YEAR LIMITED WARRANTY ON WINCH ASSEMBLY.**

THE SKYMASTER® CEILING-SUSPENDED VOLLEYBALL SYSTEM FEATURES:

- 4" O.D. Powder Coated Steel Support Structure
- IHP Dual Drum Direct Drive Electric Hoist
- Rail System for net attachment providing infinite net height adjustment for volleyball, badminton, and tennis.

ANCHOR STYLE	STYLE B	STYLE BX	STYLE C	STYLE E
	Style B anchors are used on wood floors when one layer of wood is directly on concrete. Style B anchors are also used on portable wood basketball floors such as arena floors that are 3” or more thick for anchoring Gared portable units.	Style BX anchors are used on wood floor when the floor is over a subfloor directly on concrete.	Style C anchors are used of concrete floors or synthetic floors.	Style E anchors are used on permanent style floating floors. Style E is not recommended for portable floating floors such as arena floors because of the permanent location of the anchor. However, if requested by the customer, the style E could be used on portable arena floors.

VOLLEYBALL UPRIGHT SAFETY PADDING

VOLLEYBALL UPRIGHT SAFETY PADDING protects players from injury during play • 6' high pads are comprised of 1 ¼" thick urethane foam covered in 14-oz. vinyl-coated nylon • See color chart for color availability • Meets NCAA, NFHS, and International specifications.
